Priyanshu Anand

Chandigarh, India · priyanshu82711@gmail.com · +91-6205146659 · github.com/priyanshwho · priyanshu.cv

Professional Summary

Software developer with experience building full stack and AI-based applications. Skilled in Python, TypeScript, JavaScript, SQL, DBMS and OOP. Experienced in developing web applications, connecting frontend features to REST APIs and backend services, and integrating Generative AI features into applications.

Experience

Lafleurtech | *Software Engineer Intern* *Jul 2025 – Jun 2026*

- Developed frontend features using **React.js, Next.js and TypeScript**, including UI changes, component updates and debugging.
- Integrated frontend features with **Python FastAPI endpoints**, handling API requests and responses between the web application and backend services.
- Integrated AI features into web application workflows and used **Git and Vercel** for code management and deployment.

AISOC by Design Innovation Center (DIC) | *Student Developer* *Jun 2025 – Jul 2025*

- Developed frontend interfaces using **React.js and Tailwind CSS** for a platform used to demonstrate AI and machine learning projects from the DIC AI/ML Lab.
- Connected frontend components to backend APIs and handled API responses and error states for the AI demonstrations.

Projects

EduSphere | AI-Powered Learning Platform | *React.js, Node.js, Express.js, PostgreSQL, Redis, OAuth 2.0, RBAC* *edusphere.live*

- Built an academic platform serving **600+ users**, featuring **AI tutoring, document Q&A, quizzes, flashcards**, and academic resource management.
- Implemented **Google and GitHub sign-in** with **OAuth 2.0 and Clerk-based authentication**, alongside **Role-Based Access Control (RBAC)** for Students, Professors, and Admins.
- Integrated **Redis** for caching and improved application responsiveness; deployed on **Oracle Cloud** using **Nginx** as a reverse proxy, with HTTPS configured through **Let's Encrypt and Certbot**.

ArgonAI | AI Workspace Agent | *Next.js, TypeScript, PostgreSQL, Prisma ORM, Google OIDC, GitHub OAuth* *argon.priyanshu.cv*

- Built an AI-powered productivity workspace for managing **email and calendar workflows**, including **conflict detection** and available-slot recommendations.
- Integrated **Google OpenID Connect (OIDC)** authentication and **GitHub login** to support secure user sign-in.
- Implemented **AI-assisted email drafting and calendar invitation generation**, with **user review before execution**.

KishanSaathi | AI-Powered AgriTech Platform | *React.js, TypeScript, Python, PostgreSQL, OIDC* *kishansaathi.priyanshu.cv*

- Built a web interface for agricultural insights and connected frontend features to **Python FastAPI endpoints** for **crop health, yield forecasting, and farm analysis**.
- Integrated **OpenID Connect (OIDC)** authentication and developed features for **live mandi prices, market data, and multilingual agricultural assistance**.
- Deployed the backend on **Oracle Cloud** using **PM2** for process management and configured the application to run as a **persistent production service**.

Education

Bachelor of Engineering in Information Technology *2023 – 2027*
UIET, Panjab University | Chandigarh, India

Key Skills

Languages & Core Concepts: Python · TypeScript · JavaScript · SQL · DBMS · OOP
Frontend & Backend: React.js · Next.js · Node.js · Express.js · FastAPI · REST APIs
AI & Generative AI: Generative AI · RAG Architecture · Agentic AI
Data & Security: PostgreSQL · MongoDB · Redis · Prisma ORM · OAuth 2.0 · OpenID Connect (OIDC) · Google OAuth · GitHub OAuth · Clerk · RBAC
DevOps & Tools: Oracle Cloud · Linux · PM2 · Nginx · Caddy · Let's Encrypt · Certbot · Git · GitHub · Vercel
